Secured 6066 rank in JEE Mains 2017

ACTIVITIES

Served as the academics captain of school.

AREAS OF INTEREST

Competitive Programming

Android

Machine Learning

SKILLS

C++ Programming (Intermediate)

Java (Beginner)

MySQL (Beginner)

PROJECTS

❖ Mp3 and Mp4 player using Java

Technologies Used: Java, JavaFX

It is a Java application that can play both music(mp3) and videos(mp4). It searches music on the basis of songs, videos, artists, albums and genres. You can create your own playlist and listen to music from it as per your choice. Every song and video can be rated. It can keep track of the most played songs and recent plays. It can play any music and video from the computer by selecting it. You can find all the features that a music player has, topped with an amazing GUI.

❖ Vincent

Technologies Used: Android , ML, FireBase, BeautifulSoup

It is an android application that recommends movies and anime. It takes the choice of the user initially and then gives the choices that match the most. It is an integration of Android and Machine Learning. It uses Auto Encoder for training the model.
